Who We Are

NETTMS Urban Habitat Pvt. Ltd. is a Digital Construction Management & BIM Delivery Platform headquartered in Hyderabad, Telangana, India. We operate as the single digital coordination layer for AEC consultants, PMCs, developers, and infrastructure programs — connecting all construction stakeholders from design concept to as-built digital handover through structured BIM delivery, ACC/CDE governance, and certified digital quality frameworks.

We are not architects. We are not contractors. We are the digital intelligence layer — enabling design consultants to focus on design while NETTMS handles all BIM production, coordination, quality governance, and digital asset delivery.

Core Service Lines

#	Service	Description
01	BIM Outsourcing (Global)	Offshore BIM production — Architecture, Structure, MEP, Tekla, Scan-to-BIM. LOD 100–500. NDA-protected.
02	BIM Delivery & Coordination	Multi-discipline clash detection, RFI tracking, CDE management, GFC sheet sets.
03	Digital Construction Management	Autodesk ACC setup & governance, 4D/5D/6D coordination, digital QA/QC dashboards.
04	Digital Asset Twin (Lite)	Certified as-built BIM + O&M; data + equipment tags + Digital Release Certificate.
05	Digital Twin & GIS-BIM	City-scale spatial BIM, GIS-BIM integration, infrastructure digital twin platforms.

WatchDoc	Digital quality monitoring & as-built documentation compliance	—

Quality & Governance

Every NETTMS deliverable passes through a structured 5-Level Digital Quality Governance Framework aligned with ISO 19650 and ISO 9001. No drawing, model, or report is released without multi-layer clearance, traceable approval, and a unique NETTMS Release ID. Clients can verify any deliverable's authenticity via QR code at any time.
